

# SKYKICK CLOUD BACKUP

The fast, easy way to backup all your Office 365 data

netcetera®

## WHAT IS SKYKICK CLOUD BACKUP?

SkyKick Cloud Backup is a market-leading backup solution that helps protect your Office 365 data. Featuring unlimited backup storage, powerful search mechanics and one-click data restore, it's one of the fastest and easiest ways to get your productivity back on track.

If you're using Office 365 for your email, to store files in the cloud via OneDrive for Business, or to communicate and share files with your colleagues via Office 365 Groups and SharePoint, SkyKick will back up everything automatically up to six times per day. So, even if you delete a file by accident, chances are that it will be saved on a previous backup and can be easily recovered.

## DATA RECOVERED IN MINUTES

Restoring individual data from Office 365 can take IT Technicians up to 6 hours, due to a long and complicated export and import process.

But with SkyKick, your files can be recovered in minutes with the one-click restore feature. The solution also allows your files to be restored in

bulk on OneDrive for Business, with SharePoint folders, lists, sub-sites and sites bulk restore available in late 2018. Plus, all your Office 365 data can be recovered to the exact same location it was saved within.

“75% of data is lost via deliberate or accidental deletion”

**SKYKICK**

## **WHY CHOOSE SKYKICK CLOUD BACKUP?**

### **UNLIMITED BACKUP**

No data caps, no retention limits, and up to six daily backups.

### **ONE-CLICK RESTORE**

Powerful search indexing means we can find and restore emails in minutes, not hours.

### **NO FILE OVERWRITES**

All data is backed up separately to eliminate the risk of cross-file infection.

**FOR FAST AND EASY CLOUD-TO-CLOUD BACKUP  
FOR OFFICE 365, CHOOSE SKYKICK.**
